FRANCISCO BORJA PLAZA.

MARKETING BACHELOR

BUSINESS INTELLIGENCE MASTER'S DEGREE

With over ten years of international experience in Business Intelligence and Data Engineering, I have led impactful BI and analytics projects for several organizations in Spain, Mexico, Ecuador, and the United States. I am skilled in SQL, ETL, and Python programming, enabling effective data management and the creation of dynamic dashboards using several Business Intelligence tools.

Holding a Master's degree in Business Intelligence, I have worked in significant roles at global organizations, including the United Nations, and as a consultant and professor in Ecuador. My expertise also includes developing machine learning models and performing in-depth data analysis to derive actionable business insights. I excel in simplifying complex data into clear, strategic business solutions, supported by strong project management and team leadership skills. I am proactive, creative, and committed to using data to drive business improvements.
